PORTFOLIO PRODUCTS

[IP Audio Conference Phone 2033](#)

The IP Audio Conference Phone 2033 is a state-of-the-art, full duplex, handsfree, IP audio conference phone that is easy-to-use, install and is robust in capabilities. Offering full duplex handsfree support, it provides 360 degree coverage for rooms up to 20' x 30' in size.

[IP Phone 1100 Series](#)

The Nortel IP Phone 1100 series is an exciting new generation of desktop IP Clients which includes support for high-resolution graphical displays, USB, Gigabit Ethernet and Bluetooth (selected models), a local secure tools menu for simplified administration along with a sleek, cutting-edge ergonomic design.

[IP Phone 2000 Series](#)

IP Phone 2000 Series of desksets offers a portfolio of standard, intermediate, professional and advanced-level desksets to meet the comprehensive needs of today's businesses.

[IP Softphone 2050](#)

IP Softphone 2050 is a professional-level IP softphone supported on Nortel Communication Server 1000 and Business Communications Manager and is ideal for campus or home-based workers and workers constantly on the go.

[LG-Nortel IP Phone 6800 Series](#)

The LG-Nortel IP Phone 6800 Series of desksets provide the features and functionality of a traditional desktop telephone along with the advantages of advanced IP technology.

[Mobile USB Headset Adapter for IP Softphones](#)

The Mobile USB Headset Adapter for IP Softphones introduces a smaller, more portable form factor to today's Enhanced USB Adapter for the IP Softphone 2050 in addition to extending support to other Nortel Softphone clients including the m6350 and MCS clients. The Mobile Adapter provides the same button keys for answer, release, volume up and down and mute as does the desktop version for a very intuitive and efficient user interface.

[Mobile Voice Client 2050](#)

Mobile Voice Client 2050 is an 802.11 WLAN IP Telephony Softphone. Designed for Windows Mobile Pocket PC PDAs, it maximizes mobile worker productivity by delivering secure access to both voice and data communications, leveraging a rich suite of telephony features from Nortel Communication Servers.

[WLAN Handsets 2210 and 2211](#)

Durable handsets, specifically designed for mobile workplace use within a facility using the supported Nortel Networks IP Telephony Call Servers and 802.11b Access Points (APs) in a wireless LAN.
